Premier Breeding Products

PetTech Solutions Whelping Boxes

- Easy to assemble, disassemble & convert to best suit your space & needs.
- Modular design gives you the freedom to change Single Boxes to Double Boxes with a weaning pen & Double Boxes into Separate Single Boxes at any time with our Conversion Kits.
- Sizes to suit all breeds, your box includes easily removable puppy rails, a leak proof bottom pan to protect your floors, an adjustable height & solid front door.
- Disassembles effortlessly & saves space as boxes lay down flat & all parts fit into the bottom pan for storage.
- Each PetTech Whelping Box is hand welded for smooth edges & a safe environment with no small parts making it extremely easy to clean & disinfect.
- Made with exceptionally durable & safe, food-grade HDPE 2 plastic.

VIS Scan X Ultrasound for Breeders

- Touchscreen features & easy, intuitive software.
- The perfect solution for beginners & those wanting to learn ultrasound.
- The ScanX Ultrasound system includes a 10" Microsoft GO tablet, specialty software package & one ultrasound probe.
- Includes automatic cloud backup of your scanned images & videos.
- Small, lightweight, & portable veterinary ultrasound system.
- Ideal for reproductive exams of dogs, cats, goats, and sheep.
- Surface Go tablet is perfectly portable, with a 10.5" touchscreen, excellent resolution, and long battery life.

Ovulation Detector

A one-time investment that lasts a lifetime. This small, handheld device reliably, safely & affordably pinpoints ovulation.

The Draminski Dog Ovulation Detector provides accurate identification of ovulation, even with a 'silent heat' with minimal labour & expense.

Used correctly, the Dog Ovulation Detector makes it easy, affordable & helps determine precisely when to mate.

Vetbed®

- The Original green backed fleece, recommended by vets, preferred by breeders.
- Hygienic, non-allergenic & nontoxic.
- Excellent drainage properties ensure a dry, cozy surface.
- Easily machine washable without deterioration over time.
- Ideal for animals with allergies or sensitive skin.
- Available in wide range of sizes & custom printed on white with blue and yellow paw prints. Yes, the white stays white!
- Higher bulk & superb heat retention distinguishes it from all other vet fleece.
